VIOLENT SLUMP IN STOCK PRICES

Wave of Liquidation Carried the Market Comprehensively to Lower Level.

BIG DROP IN A. C. L. & L. & N.

Story of Lease Discredited. Market Grows Suspicious. of Many Rumors.

(By Associated Press.)
NEW YORK, April 27.—The lack of confidence in the present level of prices was the only obvious cause for the wave of liquidation which swept over the stock market to-day and carried prices com-prehensively to a lower level. The liqui-dation was renewed again and again, and market to-day and carried prices comprehensively to a lower level. The liquidation was renewed again and again, and the entire lack of support and the failure to attract any effective demand at the cheaper prices caused progressive growth in the feeling of disgust. The violence of the decline gave rise to a crop of sinister rumors of "something hanging over the market." No better foundation developed for these rumors while the trading was in progress than for the many brilliant stories which have regaled the speculative appetite while prices were being pushed upwards. The stocks centering about the Northern Securities Company shared fully in the day's weakness, but they were not so singly conspicuous as had been the former dividend on Norfolk and Western seemed to sharter the hopes of speculator regarding a large number of other stocks which have been heavily bought on similar expectations. The story of the Louisville lease to Aliantic Coast Line on a 7 per cent. dividend basis, which was the latest production of this character, obtained so little credit to-day that these two stocks were amongst the principal sufferers by reason of the violent reaction from yesterday's jump, Rumors of mergers amongst the metal industrials, which have little prices extensively, were equally open to suspicion with consequent damage to the shocks concerned. The character of to-day's selling was a plain inlimation that important liquidation remained to be completed. The volume of the selling gave rise to some startling estimates of the proportions of the speculative losses which have been suffered by reason of ill-judged campalgns. The tone at the close was semi-demoralized and show-diseases from 2 to over 6 points for all the principal active stocks in the list.

Bonds were weak. Total sales, par value, \$2.96,000. United States bonds were all unchanged on call.

The total sales of stocks for the day arounted to 1.031,800 shares.

COTTON MARKET.

COTTON MARKET.

NEW, YORK, April 7.—The cotton market was much more active. The opening was easy, in spile of rather better cables than expected first prices being 2 points higher to 3 points lower. The initial advance was on May, but that, month declar and market was not may be a supported by the comprow. The initial advance was on the comprow while other active months sold off under a renewal of bear pressure, based on good weather. South big receipts and further talk of free spot offerings. After a celline of 5 or 6 points under last night's finals the market was railled sharply by covering. It looked as if about all the May liquidation had taken place that could be expected, and nearby shorts began to display uncasiness, owing to rumors that notice would be promptly stopped and reports of alarger reduction in acresage than has been recently acknowled to the state of the county and the county of the county and injuidation, and final prices, while steady, were at about the lowest of the season, a not decline of 5 points to an advance of 2 points, were estimated at 450,000 bales. After the close, however, on a renewal of bear pressure and liquidation, and final prices, while steady, were at about the lowest of the season, a net decline of 5 points to an advance of 2 points. The gains being on the new crop months. Sales were estimated at 450,000 bales. After the close a private estimate was issued claiming a reduction in acresage of about 14 per cent.

Receipts of cotton at the peris to-day were 21,439 bales against 10,450 fact were and 4,120 bales against 10,450 fast year. And at Houston 3,615 bales against 1,755 last year.

COTTON

COLLOIA.
NEW YORK, April 27, 1005.—Reports reaching me as to the extension of the
boll weevil, the lateness of the crop and apathy in its cultivation, combining with
an acreage reduction averaging 14 per cent, lead me to the conclusion that a
bumper crop next year is unlikely, Now
freedy, spinners are buying with equal
cline seems unlikely, while any untoward development in the crop will lead to a
sharp advance. I shall, therefore, appre- clate it if those to whose eyes this may
come will advise me promptly should the
outlook, in their opinion, continue un- promising or become more so, THEODORD H. PRICE.

WILL REDUCE CROP.

Decrease, However, Will Not be as Great as Was Contemplated.

(Special to The Times-Dispatch.)

BALTIMORE, MD., April 27.—Definite Judgment about the settent of the success of the movement for a reduction in cotton acreage this season seems to be at the moment impossible. Bankers in close touch with growers in all parts of the cotton helt, cotton manufacturers vitally interested in obtaining a reasonable estimate as to the size of the coming crop, and the managements of cottonseed oil mills, alse affected in like manner, have tried to guage the situation, and the impression left by the expressions of opinions by probably 2,000 persons thoroughly representative of these classes in the South is, that while the reduction in acreage may not be as great as was contemplated three months ago, masmuch a perfect organisation of a million grower reduction in the older grower sections will be accompanied by some incomply through lessened acreage, but though soil and weather conditions interior decrease in the sixe of the contion continued by letters filling nearly nine page to the May tsue of the Southern Farm Agazine of Baltimore from agricultural impagement desilers and manufacturers and fertileer interests written in response to requests that they give their views, based upon information obtained in dealing direct to the farmers, or through their agents, as te acreage reduction and diversification of crops.

Movements of Staple Products. Movements of Staple Products.

(Special to The Times-Dispacia).

WASHINGTON, April 17.—The movements of staple products at interior centers during the first quarter of the current year, as reported to the Department of Commerce and Lakor through its Bureau of Statistics, compare favorably with similar movements for a corresponding period in 1801, although total grain receipts and shipments were not quite so heavy, in the aggregate, as they were last years at primary markets for the month of March were considerably in excess of the movements for all the month in the preceding year, owing largely to the increased quantity of corn handled.

beans, tomatoes, cymblings, onlons, straw-berries and other good things from 'way down South were pientiful and in splen-did condition. All these goods, sold readily and quickly, found their way to the re-tail stands throughout the city. There was no trouble in getting eggs and spring chickens, and these were about the only. Virginia articles the market af-forded.

Leaf Tobacco Market.

The offerings of loose leaf tobacco on the warehouse floors were very small yesterday and made up entirely of shipped tobaccos. There were buyers a plenty, and they paid good prices for what was offered them and regretted that they did not have more tobacco to bid on. If there shall be sanything to sell to-day sales will begin at Crenshaw's, second sale at Shelburne's, third at Stonewall and fourth at Shockoe.

It Won't Work.

A story is told or a woman overheard at a theatrical performance saying to her little son. "I paid money to have you enjoy yourself, and if you don't enjoy yourself I'll thrash you when when we get home." Somehow these proposals to make people moral by legal enactment remind us of that story,—Florida Times-Union.

Jeffersonianism Defined.

Mr. Bryan claims that Thomas Jefferson was a Bryan Democrat, while Judge Parker declaros he was a Parker Domocrat. These are serious charges to make against an eminent statesman long since dead, and his many admirers insist that both assertions are fuse.—Louisville Post.
